Introduction

Missouri Health Maintenance Organization Report 2001

This report provides the public with financial and operational data on **health maintenance organizations (HMOs)** operating in Missouri. Changes in the HMO market have prompted revisions in the information contained in this report. In addition, the rules governing financial data that is reported were completely overhauled for 2001. Some information presented in prior HMO annual reports appears under a different name. Some information no longer appears, because the financial reports either no longer capture those elements or new items were considered of greater importance.

To reflect the changing nature of the HMO marketplace, particularly the enormous cost pressures that have returned to healthcare, this report contains new information. MDI has gathered cost data from Missouri HMOs for years, some of which is presented now in an aggregated form to protect proprietary information. In addition, cost comparisons are made in each HMO profile, showing the relative importance of hospital costs, pharmacy costs, emergency costs, etc.

Data used to prepare this report is filed with the Missouri Department of Insurance (MDI) pursuant to Sections 374.426 and 354.435, RSMo. All data in the report, based on the 2001 calendar year, comes from HMO annual financial statements and supplemental data filed with the MDI by each Missouri-licensed HMO operational at year end 2001 (unless otherwise noted). **The report's accuracy is limited by the quality of data provided to MDI by the HMOs.** Future printings of the report may update any erroneous data brought to the attention of MDI. The information is intended for general comparisons and evaluations. The information is not, in any form, an endorsement or an objection by MDI about the operations of any HMO. Questions, corrections and comments regarding this report should be directed to the Missouri Department of Insurance, Managed Care Section, P.O. Box 690, Jefferson City, Missouri 65102-0690 or the MDI website at www.insurance.state.mo.us.

Missouri Licensed Health Maintenance Organizations

Alexian Brothers Community Services

(314) 771-5800
3900 S. Grand
St. Louis, MO 63118-3414

The Alliance for Community Care, LLC d/b/a Community Care

(314) 454-0055
5615 Pershing Avenue, #29
St. Louis, MO 63112

Blue Cross & Blue Shield of Kansas City, Inc.

(816) 395-2222
2301 Main Street
Kansas City, MO 64108-2428

BMA Selectcare, Inc.

(Merged into Blue Cross & Blue Shield of
Kansas City, Inc. effective 4-01-01)

Children's Mercy Family Plan

(No enrollment)

d/b/a Aetna U.S. Healthcare, Inc.

(314) 567-6660

Two City Place Drive, Suite 300

St. Louis, MO 63141

Missouri Health Maintenance Organization Enrollment Information

This section presents enrollment data for Missouri-Licensed HMOs as of 12/31/01, reported in the 2001 HMO Annual Supplement Report. An HMO enrollee is defined as a member or eligible dependent of a member for whom the HMO has accepted financial responsibility for provision of contracted health services.

This information EXCLUDES:

- 1. enrollment of persons in preferred provider organizations (PPOs) and**
- 2. enrollment of persons in self-funded employer plans for which HMOs or their affiliates provide administrative services.**

Accurate risk and health services management assessment requires analysis of membership experience for which the HMO has assumed financial liability. Therefore, statutory filings used as data sources for this report exclude administrative service-only (ASO) members. (Footnotes to tables indicate which submitted data has been adjusted to exclude ASO members and maintain comparability of enrollment data.) Administrative arrangements allow an HMO to earn fees from network rental, utilization review, claims processing and/or other administrative services. Administrative fees are not considered premium revenue.

This section reports commercial, Medicare and Medicaid enrollment. Commercial enrollees purchase managed care coverage either directly or more commonly through their employers. Medicare and Medicaid enrollees are Medicare and Medicaid beneficiaries who enroll in HMOs that have arranged for the provision of health care services under agreements with the Center for Medicare & Medicaid Services (CMS) and/or the Missouri Division of Medical Services.

The “HMO Profiles” section and the “Enrollment by Regions and Metropolitan Statistical Areas” section of this report each present 2001 HMO enrollment under slightly different conditions. The “Profiles” section reports **average enrollment over the course of the year** with age and gender components. The “Enrollment by Regions...” section uses total year-end enrollment by residential zipcode instead of an aggregate statewide total as reported in the Annual Financial Statements. The Annual Financial Statement reports “projected” information, while the data collected for the preparation of this report is “actual”. **Total enrollment numbers will vary between these sections** due to different reporting conditions.

Year End Missouri Member Totals (1997 - 2001)

includes Commercial, Medicare and Medicaid enrollment

	1997	1998	% Change (1997-98)	1999	% Change (1998-99)	2000	% Change (1999-2000)	2001	% Change (2000-2001)
Commercial Members	1,258,759	1,283,778	2.0%	1,202,515	-6.3%	1,194,018	-0.7%	1,033,720	-13.4%
Medicare Members	83,262	110,731	33.0%	120,856	9.1%	130,163	7.7%	123,775	-4.9%

Model Types Operational in Missouri in 2001

Model Type Definitions

Group The group model HMO contracts with a single multi-specialty medical group to provide care to the HMO's membership. The group practice may work exclusively with the HMO, or it may provide services to other HMO and non-HMO patients as well. The group model HMO, typically, is not a full spectrum of services.

IPA The independent practice association model HMO contracts with physicians in solo practice and/or with independent practice or physician associations which in turn contract with their own member physicians. In many cases, the physicians in an IPA model HMO have a significant number of patients who are not HMO members.

Mixed The mixed model HMO is any combination of the model types described here, except PACE.

Network The network model HMO contracts with a provider sponsored organization, typically anchored by a hospital, that includes a full spectrum of services (including physicians, inpatient facilities, and ancillary services) under one contract.

PACE Program of All-inclusive Care for the Elderly (PACE). The PACE program is a unique capitated managed care benefit for the frail elderly provided by a not-for-profit or public entity that features a comprehensive medical and social service delivery system using a multidisciplinary team approach in an adult day health center, supplemented by in-home and referral services in accordance with participants' needs.

Network For more information reference the following website: <www.cmms.gov/pace>

Staff The staff model HMO employs physicians and other medical professionals directly. Staff model HMO employees deal exclusively with their HMO's members.

Small Employer Comprehensive Medical Expense Information

Missouri Licensed HMOs

This information is broken down into three Enrollment Categories:

- ♦ **Small Employer (2 - 50 Employees)** - as defined by the federal Health Insurance Portability and Accountability Act (HIPAA).
- ♦ **Small Employer (3 - 25 Employees)** - as defined by the Revised Statutes of Missouri at 379.930.2(28).
- ♦ **Large Employer/Union (over 50 Employees)** - as defined by the federal Health Insurance Portability and Accountability Act (HIPAA).

Number of Employers -

Number of Enrollees - equals the number of subscribers plus all dependents.

Direct Premium Written - Amount charged when a subscriber contracts for insurance coverage before reinsurance has been ceded and/or assumed.

Direct Premium Earned - The amount of premium attributable to the coverage already provided in a given period before reinsurance has been ceded and/or assumed.

Dividends Paid or Credited on Direct Business - The dollar amount paid to policyholders under participating agreements. These dividends are paid to policyholders after coverage has expired for which they have paid premium. Dividends paid to company stockholders are not included.

Direct Losses Paid - The sum of all payments made during the year for the benefit of insurance claimants, before reinsurance has been ceded and/or assumed. These payments include amounts paid in the current year for claims arising from coverage in prior years and exclude amounts which will be paid in future years for claims arising from the current year. Hence, this item is not a measure of actual cost of current coverages, but only of current cash flows.

Direct Losses Incurred - The sum of direct losses paid plus an estimate at the close of the year of the amounts to be paid in the future for all claims arising from the current and all prior years, minus the corresponding estimate made at the close of business for the preceding year. This includes estimated amounts for incurred-but-not-reported (IBNR) claims.

HMO Financial Information

The tables and charts in this section describe the financial operations of health maintenance organizations licensed and active in Missouri in 2001.

The first portion of the section pertains to the HMOs' Missouri market activities including:

- total Missouri premium by payment category (commercial, Medicare, and Medicaid revenues) from 1997 to 2001;
- Missouri market shares by HMO and by holding company; and
- Commercial premiums per member per month (PMPM).

The second half of this section focuses on the HMOs' overall business experience including, but not limited to, results of Missouri operations. Data from the balance sheet and income statements of Missouri-licensed HMOs, along with detailed tables on the composition of revenues and expenses reported in the HMOs' 2001 annual statements are shown.

In addition, three tables depicting the business experience of the HMOs indicate the relative liquidity, efficiency and performance of each HMO. Included in these indicators are medical loss and administrative expense ratios, which are commonly tracked as measures of an HMO's cost-management effectiveness. Note that these ratios and indicators are dependent upon the model type, length of time in operations and accounting practices. Where necessary, adjustments have been made (and noted) to maintain data comparability.

Though these ratios and indicators have been commonly accepted and often referred to in industry analyses, no benchmarks or target values have been established. The values shown for any one HMO relative to another are not meant to be interpreted as an endorsement or rating by the Missouri Department of Insurance. The information is intended to serve only as a basis for comparison, using commonly accepted industry measures.

Year End Missouri Premium Related Revenue Totals

Commercial, Medicare and Medicaid Revenues

Missouri Premium Related Revenue Totals and % Changes									
	1997	1998	% Change (1997-1998)	1999	% Change (1998-1999)	2000	% Change (1999-2000)	2001	% Change (2000-2001)
Commercial Revenue	\$1,548,026,308	\$1,767,646,770	14.2%	\$1,951,063,199	10.4%	\$2,087,224,886	7.0%	\$2,208,065,015	5.8%
Medicare Revenue	\$344,902,093	\$517,503,047	50.0%	\$691,192,940	33.6%	\$737,407,410	6.7%	\$750,373,207	1.8%
Medicaid Revenue	\$336,505,127	\$344,442,512	2.4%	\$386,368,112	12.2%	\$458,514,330	18.7%	\$596,910,003	30.2%
Total Premiums/Revenues	\$2,229,433,528	\$2,629,592,329	17.9%	\$3,028,624,251	15.2%	\$3,283,146,626	8.4%	\$3,555,348,225	8.3%

Formula for calculating % changes = (Current Year Total - Previous Year Total) / Previous Year Total

Note: The change in Missouri premium related revenue totals may be significantly different than the change in Missouri year end member totals shown on pages 5, 7, 11, 13, and 15 of this report. Year end Missouri premium related revenue totals are amounts accumulated throughout the entire year, whereas Missouri member year-end totals represent a number as of December 31 of that year.

Cost Comparisons

for
Missouri Licensed HMOs

The following pages are new to the Missouri HMO Annual Report. Cost data is collected quarterly for all HMOs. All cost data is from the annual Managed Care Supplemental Data Filing, Cost of Services Table, for 2001.

This information shows how dollars are spent on different categories of health care. Historically, hospital costs represent the largest percentage of all medical costs. Partly because of its incentives to get preventive care before hospitalization is necessary, managed care was promoted as the most effective solution for addressing rapidly rising medical costs found from the 1970s to the early 1990s. As the data on these pages show, Missouri's commercial HMOs are spending nearly as much on other areas, including pharmacy and outpatient physician care, as they are spending on inpatient hospital care. The Medicare and Medicaid markets continue to exhibit hospital expenses that are far higher than expenses in other categories.

In recent years, rising pharmaceutical costs have received considerable attention in the media. While dramatic increases have occurred in drug related spending, health policy analysts tend to see pharmaceutical spending as an important 'release valve' slowing the rising cost of hospital care. In fact, they are spending more on average for outpatient prescriptions than inpatient hospital. Companies spending the least on prescription drug benefits tend to exhibit comparatively higher spending on inpatient hospital care and emergency care.

Results of Nationwide Operations

Missouri Licensed HMOs

Source: 2001 HMO Annual Financial Statements submitted to the Missouri Department of Insurance unless otherwise noted.

Please note: this section contains the plan wide operations data for Blue Cross & Blue Shield of Kansas City, not just the HMO business. This company is operated under a dual Health Services Corporation and Health Maintenance Organization license, per §354.475 RSMo. MDI determined in 1999 that this company shall comply with laws governing HMOs in Missouri, including laws requiring HMOs to file data with MDI.

Balance Sheet Items

- A. % Missouri Business** - Reported Missouri premium-related revenues relative to reported total nationwide premium related-revenues. Premium related revenue includes commercial premiums and Medicare and Medicaid revenues recorded on a prepaid basis for the provision of contracted health services.
- B. Total Cash and Short Term Investments** - Cash on hand and investments maturing in one year or less, excluding cash restricted for statutory insolvency reserve requirements or held for contract reserves (e.g., Medicaid grants).
- C. Premium & Health Care Receivables** - Gross amounts collectible for services rendered less the amount accrued for premiums determined to be uncollectible. Excludes fee-for-service revenues.
- D. Total Assets** - Permitted assets determined in accordance with statutory requirements. Includes: cash; premiums receivable; investment income receivable; health care receivables; short-term and long-term investments; amounts due from affiliates; property and equipment; and aggregate write-ins for other assets.
- E. Total Liabilities** - All obligations, determined in accordance with state statutes, for which an HMO is financially responsible. Includes: Claims unpaid, unpaid claims adjustment expenses, claim reserves, premiums received in advance, general expenses due or accrued, federal and foreign income taxes payable, amounts due to parent, subsidiaries and affiliates, borrowed money.
- F. Total Capital & Surplus** - Includes: Common capital stock, preferred capital stock, gross paid in and contributed surplus, surplus notes, unassigned funds, less treasury stock at cost.
- G. Total Liabilities, Capital & Surplus** – Includes: Total Liabilities plus Total Capital & Surplus.

Percent Missouri Business is based on premium earned information from the 2001 Annual Statement Premiums, Enrollment and Utilization Table for Missouri (page 34.MO).

*Includes plan wide revenues of \$19,146,616 related to the provision of services to HMO enrollees but excluded from the 2001 Annual Financial Statement.

•Excludes Blue Cross & Blue Shield of Kansas City, CIGNA Healthcare of Ohio, Coventry Health Care of Kansas, HealthNet, Humana Health Plan, and Prudential Health Care Plan.

Income Statement Items

- A. Missouri % of “A”** - Reported Missouri premium related revenues relative to reported total nationwide premium related revenues (before premiums ceded for reinsurance). Premium related revenue includes commercial premiums and Medicare and Medicaid revenues recorded on a prepaid basis for the provision of contracted health services.
- B. Net Premium Income** - Total commercial premiums and Medicare and Medicaid revenues recorded by nationwide business operations on a prepaid basis for the provision of contracted health services, net of premiums ceded for reinsurance. Premium revenues do not include fee-for-service revenues.
- C. Total Revenue** – Includes: Premium related revenues, fee-for-service revenue, risk revenue, and changes in unearned premium reserves.
- D. Total Medical & Hospital Expense** - Includes: Hospital/medical benefits; other professional services; outside referrals; emergency room and out-of-network; incentive pool and withhold adjustments; aggregate write-ins, **LESS** net reinsurance claims incurred; co-payments; coordination of benefits; and subrogation.
- E. Net Underwriting Gains (Losses)** - Includes: Total revenues **LESS** Total underwriting deductions.
- F. Net Investment Gains (Losses)** - Includes: Net investment income earned plus Net realized capital gains or (losses).
- G. Federal & Foreign Income Taxes** – Federal and foreign income taxes paid for the year.
- H. Net Income (Loss)** - Income adjusted for federal and foreign income taxes paid.

Revenues by Category

- A. Total Commercial Premiums** - Revenue recognized on a prepaid basis from individuals and groups for provision of a specified range of health services over a defined period of time, excluding unearned premiums, which are payments booked in advance of the period to which they apply.
- B. Total Medicare Premiums** - Revenue for services provided to Medicare beneficiaries per arrangement with the Center for Medicare and Medicaid Services (CMS).
- C. Total Medicaid Premiums** - Revenue for services provided to Medicaid beneficiaries per arrangements with the state agencies administering medical assistance under Title XIX of the Social Security Act.
- D. Total Premium Related Revenue (A+B+C)** - Total commercial premiums, Medicare and Medicaid revenues recorded by nationwide business operations on a prepaid basis for the provision of contracted health services.
- E. Missouri % of “D”** - Reported Missouri premium related revenues relative to reported total nationwide premium related revenues.
- F. Change in Premium Reserves**
- G. Total Fee-For-Service Revenue** - Revenue for the provision of health services to non-HMO members and to members for health services not covered by their benefit plan.
- H. Risk Revenue** - Revenue from investment, deposit, and reserve accounts.
- I. Total Aggregate Write-ins for Other Revenues** – Miscellaneous revenues not allocated to any other area of the Statement of Revenues, Expenses and Net Worth.
- J. Total Revenue (D+F+G+H+I)** - Total Premium Related Revenue + Change in Premium Reserves + Fee-for-Services Revenues + Risk Revenue + Aggregate Write-ins for Other Revenues.

Liquidity Indicators

Liquidity indicators are used to measure the HMO's ability to maintain adequate cash balances to meet short-term obligations. Please note: the value shown for "All HMOs listed above" is not an average of the column, but is a calculation based on industry totals.

A. Months in Operation (in Missouri) – reflects the months in operation since the issuance of the Certificate of Authority to do business in the State of Missouri.

B. Current Ratio – reflects the plan's ability to meet short-term obligations with short-term assets. If current assets aren't high enough, an organization is forced to use long-term assets, such as investments, to meet short-term debt, such as claims payable.

C. Total Cash to Claims & Payables – The ability of a plan to pay its accounts payable with available cash. Similar to Current Ratio, but with an emphasis on medical operations and an exclusion of other areas of operations.

D. % Change in Current Ratio (2000-2001) =
$$\frac{(2001 \text{ Current Ratio} - 2000 \text{ Current Ratio})}{2000 \text{ Current Ratio}}$$

E. Days Cash on Hand =
$$\frac{\text{Total Cash} + \text{Short Term Investments}}{\text{Total Medical \& Hospital Expenses per day}^*}$$

* Total Medical & Hospital Expenses per day – Expenses divided by the number of days in operation during 2001, i.e. 365 days.

The number of days the HMO could cover operating expenses with the current amount of available cash.

F. Total Unpaid Claims / Total Revenue – Total unpaid claims as a percentage of total revenue offers an early signal of potential claim management problems in an HMO. Financial difficulties are indicated by an increasing claims-to-revenue ratio and a decreasing cash-to-claims-and-payables ratio.

G. % Change in "F" (2000-2001) =

$$\frac{2001 \text{ Total Unpaid Claims to Total Revenue} - 2000 \text{ Total Unpaid Claims to Total Revenue}}{2000 \text{ Total Unpaid Claims to Total Revenue}}$$

•Excludes Blue Cross & Blue Shield of Kansas City, CIGNA Healthcare of Ohio, Coventry Health Care of Kansas, HealthNet, Humana Health Plan, and Prudential Health Care Plan.

Efficiency Indicators

Efficiency is the ability of an organization to act or produce effectively with a minimum of waste, expense or unnecessary effort. Efficiency indicators show the effectiveness of premium collection, claim payment processes and the organization's ability to generate equity on the balance sheet or surplus on the income statement. Please note: the value shown for "All HMOs listed above" is not an average of the column, but is a calculation based on industry totals.

A. Net Income = Total Revenue (before premiums ceded for reinsurance) less Total Expenses adjusted for Federal income taxes and extraordinary items.

1. **Total Revenue** is expressed before reinsurance premiums ceded for purposes of comparability with 2000.
2. **Extraordinary Items** – nonrecurring gains or losses that are unrelated to or only incidentally related to the ordinary activities of the entity.

B. % Change in Net Income = (2001 Net Income – 2000 Net Income) / absolute value of 2000 Net Income

C. Tangible Net Worth = Total Admitted Assets – Total Liabilities

D. % Change in Tangible Net Worth =

$$\frac{(2001 \text{ Tangible Net Worth} - 2000 \text{ Tangible Net Worth})}{\text{absolute value of } 2000 \text{ Tangible Net Worth}}$$

E. Days in Receivables = Total Premiums Receivable / Total Premium Related Revenue per day*

Indicates the number of days of premium revenue that a health plan has due from its members. This ratio tracks how quickly premiums are collected.

F. Days in Unpaid Claims = Claims Payable / Total Medical & Hospital Expenses per day*

Indicates the dollar amount of outstanding claims regardless of the number or age of the outstanding claims. It is in no way intended, and should not be interpreted as, a means to monitor compliance with Missouri law requiring payment of each claim within a specified time frame. The indicator presented here is a standard business indicator used to measure the amount of time (in days) it would take a company to pay off outstanding dollar amounts, measured in reference to the average dollar amount per day the company has paid out historically over the last year. A value that appears exceptionally high indicates outstanding costs in excess of average historic costs. It does **not** indicate outstanding costs of any particular age.

* **Revenues or Expenses per day** – revenue or expenses divided by the number of days in operation during 2001, i.e. 365 days.

Performance Indicators

Performance is the ability of an organization to assume responsibilities and meet obligations through operations. Performance indicators note the experience of an HMO in attaining commonly accepted standards of operation in regards to finances, enrollment and utilization. The most often cited indicator of an HMO's performance is the percentage of total premiums and related revenues that cover total medical and hospital expenses. This percentage is called the medical loss ratio (MLR). As presented below, the plan-wide MLR is defined as total medical and hospital expenses divided by total earned premium-related revenues (including Medicare and Medicaid revenue) plus fee-for-service (FFS) revenue. Therefore, the plan-wide MLR includes an HMO's experience in all states in which the HMO was active during 2001.

A. 2001 Missouri Loss Ratio (MoLR) =

$$\frac{\text{Total Missouri Benefits Incurred}}{\text{Total Earned Missouri Premium Related Revenue*}}$$

***Data on premiums ceded for reinsurance is not available at the state level.**

B. % Change in "A" (2000-2001) = (2001 MoLR - 2000 MoLR) / 2000 Missouri MoLR

★Please note that the change indicated is an actual numerical change, versus a true percentage change.

C. 2001 Plan Wide Medical Loss Ratio (MLR) =

$$\frac{\text{Total Medical \& Hospital Expenses}}{(\text{Total Earned Premium Related Revenue*} + \text{Fee-for-Service Revenue})}$$

***net of premiums ceded for reinsurance**

D. % Change in "C" (2000-2001) =

$$\frac{(\text{2001 Plan Wide MLR} - \text{2000 Plan Wide MLR})}{\text{2000 Plan Wide MLR}}$$

★Please note that the change indicated is an actual numerical change, versus a true percentage change.

Premium Revenue and Medical Expenses Per Member Per Month - Alternatively, premium revenue and medical expenses can be expressed as amounts per member per month (PMPM). Measuring medical expenses on a PMPM basis is important when comparing expense patterns to budgeted values or to prior-period values. However, these values are highly dependent upon the enrollment size, model type of the HMO and length of time in operation.

E. Total Plan Wide Member Months - A member month is equivalent to one member from whom the HMO has recognized prepaid premium revenue for one month.

F. Premium Related + FFS Revenues PMPM =

$$\frac{(\text{Total Earned Premium Related*} + \text{Fee-for-Service Revenues})}{\text{Total Plan Wide Member Months}}$$

***net of reinsurance premiums ceded**

G. Medical & Hospital Expense PMPM =

$$\frac{\text{Total Medical \& Hospital Expense}}{\text{Total Plan Wide Member Months}}$$

Enrollment by Regions & Metropolitan Statistical Areas (MSAs)

All regional enrollment data comes from the 2001 Annual Managed Care Supplemental filing unless otherwise noted.

This section presents enrollment in commercial HMO plans, commercial point-of-service (POS) plans, Medicare plans and Medicaid plans. POS plans differ from standard HMO service plans by providing members the option to receive services from providers that are outside the HMO's designated provider network. POS plans are generally more expensive because of higher co-payments, co-insurance requirements and/or limits on covered benefits. Medicare and Medicaid enrollees are Medicare and Medicaid beneficiaries who enroll in HMOs that have arranged for the provision of health care services under agreements with the Center for Medicare & Medicaid Services (CMS) and/or the Missouri Division of Medical Services.

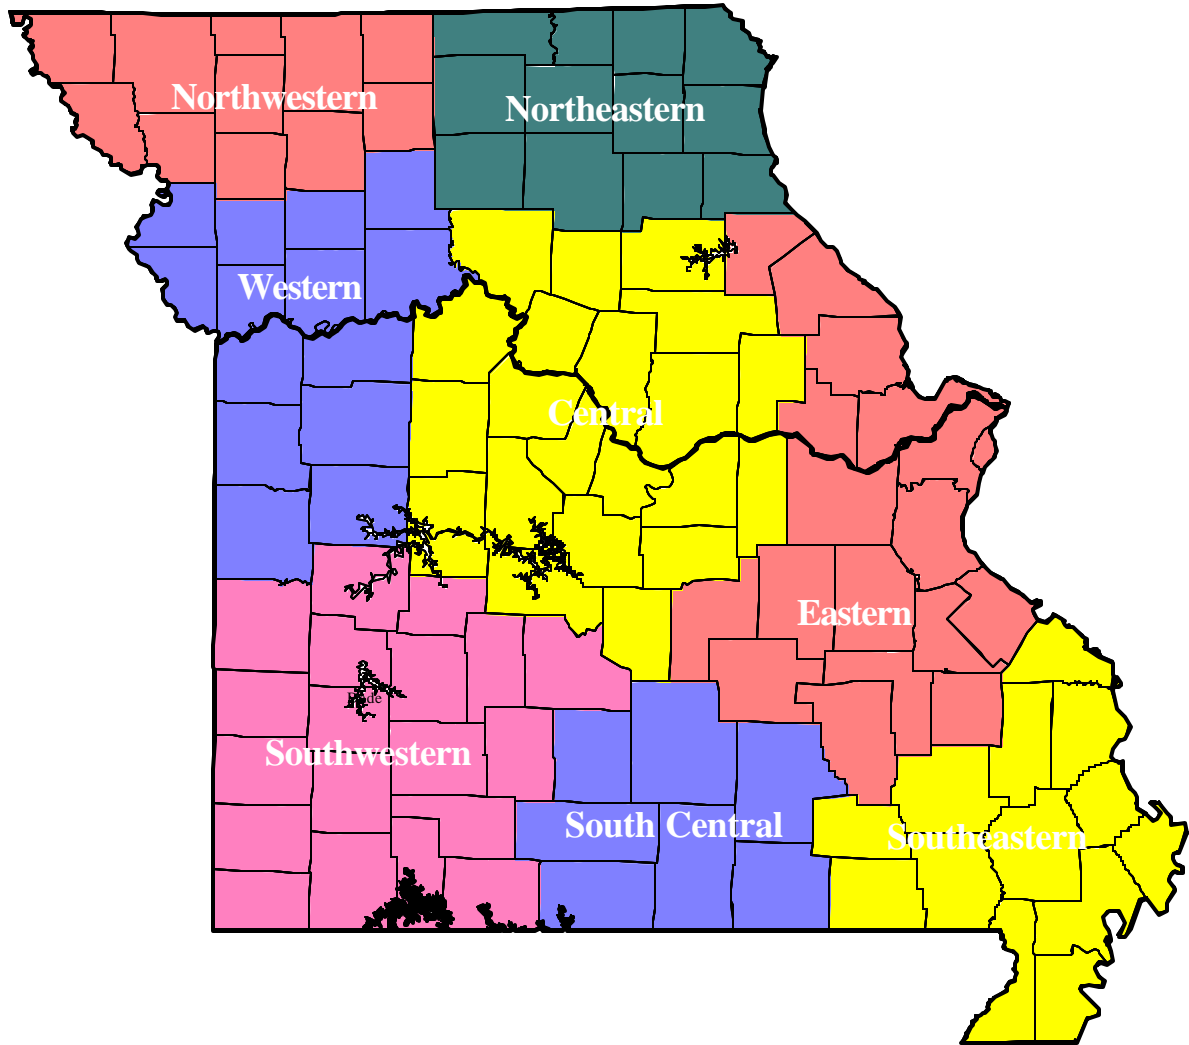

Companies are allowed to report enrollment based either on enrollees' residence or on enrollees' place of employment (in the case of enrollment under a group contract), which is commonly referred to as the "Live or Work Rule". Companies are required to report enrollment for the Managed Care Supplement in the same manner they reported enrollment for the annual financial statement.

However, total enrollment reported in the Managed Care Supplement filing will vary from total enrollment reported in the financial statement. The Managed Care Supplement is submitted to the Missouri Department of Insurance at a later date than the financial statement. Additional time between filings allows the companies to present the most updated enrollment numbers, accounting for additional information regarding new enrollees and dis-enrollments. MDI requires an explanation of any variation between the financial statement and the Managed Care Supplement that exceeds 5 percent.

This information EXCLUDES:

- 1. enrollment of persons in preferred provider organizations (PPOs) and**
- 2. enrollment of persons in self-funded employer plans for which HMOs or their affiliates provide administrative services.**
